
PLATING, SURFACE FINISHING, CLEANING AND COATING REQUIREMENTS

REVISION HISTORY

- Revision 18 is the initial revision
- The applicable revision of this document is determined by:
 - The revision specified on the purchase order, or
 - The revision in effect at the time of the purchase order if no revision is listed on the purchase order.

REQUIREMENTS

1. Piece parts, components and/or assemblies that are manufactured in accordance with (or manufactured to meet the requirements of) a Military, Federal or Commercial Specification or Commercial Off-The-Shelf (COTS) Part Number(s) are exempt from the requirements of this document. Examples JANTX, M39014, MS15795, NAS, RNR, MIL-PRF-39012, COTS as defined per FAR 12, etc.
2. Printed wiring boards (PWB) and circuit card assemblies (CCA), or PWBs and CCAs contained within assemblies, are exempt from the requirements of this document.
3. The Seller shall comply with this Quality Note for all design characteristics that include any of the process specifications listed in Table 1 below.
4. Seller shall flow down all requirements of this Quality Note to Seller's sub-tier suppliers and ensure conformance to the requirements.
5. Seller and their sub-tier suppliers shall comply with the following condition:
 - 5.1. Supplier is approved by NADCAP for the process being performed.
6. If the above condition cannot be met, the Seller shall contact the Buyer for further instruction.

DATA SUBMISSION SUMMARY

- There is no deliverable data to the Buyer required by this document.

NOTES

- Use of NADCAP certified suppliers does not absolve the Seller of their responsibility to monitor supplier performance, provide acceptable processes, products, and services, to the Buyer and to comply with all specification and quality requirements.
